

### **Lost in translation**

A representative of a youth organization takes part in training seminar to streamline their anti-racist sensitivity. Impressed by the training, she comes back to her organization and initiates a series of discussions with the team to open the organization to different socially excluded groups.

The team reached a consensus on a series of measures which should make the organization more CHARMing. The first of those takes place as early as the next day – a sign is posted at the entrance of the organization and at its website: „Invalids and gypsies are welcome“.

For a week the organization receives feedback from several organizations which denounce the sign as politically incorrect.

**We are looking forward to hearing from you!**
