

## Representativeness

A high-level meeting is planned between representatives of the youth field and representatives of European institutions that deal with planning and implementation of European youth policy. Host and organizer of the meeting is the national agency managing the “Youth in Action” program at national level in the country where the meeting takes place.

The group of participants in the meeting is formed from members of representative organizations that must meet strict criteria (such as number of members). However, it is provided the possibility for individual invitation of other participants. Yet, in that meeting there is no representative of the Roma community and other minority ethnic group. One of the workshops at the meeting was devoted to “Fight Against Discrimination”.

**We are looking forward to hearing from you!**
